—A physician in Cincinnati, Ohio, writes: "I have found Brown's Iron Bitters to be a reliable cure for lost vigor or incidental to middle aged and old men."

—Thos. Ernsperger, a young man living a few miles N. of Rough Creek, in the Ashley settlement, died last Thursday of brain disease. He had been sick four months.

—Dr. Pierce's "Favorite Prescription" is a most powerful restorative tonic, also combining the most valuable nerve properties, especially adapted to the wants of debilitated ladies suffering from weak back, inward fever, congestion, inflammation, or ulceration, or from nervousness or neuralgic pains. Sold by druggists.

—The new organ will probably be in place in the church next Sunday. Miss E. Belle Taylor, the accomplished music teacher of Hartford College, will act as organist. The organ is to be an Estey and is to be furnished by D. H. Baldwin & Co., the leading music and instrument house of the South-west. Everybody is invited to hear the new organ when it comes.

—"Do not grasp at the shadow and lose the substance." Kidney-Wort is able to convert you from a shadow of your former self into the substance of established health. Said a sufferer from kidney trouble when asked to try Kidney-Wort for a remedy: "I'll try it, but it will be my last dose." It cured him and now he recommends it to all. If you have disordered kidneys do not fail to try it.

H. has left for parts unknown.

—HAYESVILLE, Ohio, Feb. 11, 1880. I am very glad to say I have tried Hop Bitters and never took anything that did me as much good. I only took two bottles and I would not take \$100 for the good they did me. I recommend them to my patients and get the best results from their use.

—It would surprise you to see how much cheaper they sell goods at the New Store since they have resolved not to allow one dollar's worth of goods to go out of the house without being paid for. This will also remind you that if you call for goods on one day's time and are refused it is your own fault for asking, for they positively will not credit anyone.

—Mr. Oscar Haynes, of Polville, called to see us Saturday last. He brought us a sweet potato raised by H. Haynes, Esq., which is by far the largest we have seen this year. Its weight now, after having dried a month, is exactly five pounds, or a pound less than when first dug. Caranbody beat it?

—The stockholders of the bank of Hartford met yesterday and organized. The officers are: H. D. McHenry, President, and Sam K. Cox, Cashier. Directors, H. D. McHenry, Sam K. Cox, C. M. Pendleton, Z. Wayne Griffin and John J. McHenry. The new building will be completed and the bank ready for business by the first day of November.

—Mr. Emmett Chapman, of this county, a student for the Ministry at Russellville, attempted to commit suicide by taking poison last week. He is supposed to have been laboring under mental aberration, caused by troubles of various kinds. He is a very promising young man and his rash attempt is regretted by many friends. It is to be hoped that he will never be seized with another desire to shuffle off, which shall be strong enough to induce him to take strychnia in this instance.

—John Paris was tried before Judge Massey, for breach of the peace, Saturday according to continuance. The verdict was guilty and a fine of \$20 and costs was assessed against him. He paid the fine and declared against the costs, and as the Court of Appeals has decided that a man cannot be imprisoned for cost, he was allowed to go free. Sam Paris, his brother, was held in \$500 to answer at the November term of the Circuit Court for cutting with intent to kill.

—Dr. S. B. Brittan says: "As a rule physicians do not, by their professional methods, build up the female constitution, while they seldom cure the disease to which it is always liable in our variable climate and under our imperfect civilization. Special remedies are often required to restore organic harmony and strengthen the enfeebled powers of womanhood; and for most of these were are indebted to persons outside of the medical profession. Among the very best of these remedies I assign a prominent place to Mrs. Lydia E. Pinkham's Vegetable Compound."

—A few days since Mr. A. L. Morton handed us a bone of some animal which is a great curiosity. The piece is quite small and has the appearance of being one of the bones of a calf's head. The inner surface is flat and perforated with cells like honeycomb arranged in perfect order and regularly decreasing in size as they range backward. Some of the cells have a round, smooth looking substance in them that can be shaken about like peas in a child's rattle. Call and see it. There is nothing in our large collection that is more of a curiosity.

—A party composed of Messrs. Kinkead, English, Pendleton and the Misses Walker, accompanied by Messrs. H. P. Taylor and G. T. McHenry left town last Saturday morning on a nutting and grape hunting expedition. A most delightful day was spent at Ross creek and surrounding woods. Large quantities of nuts and grapes were secured and taken late in the evening to Mr. Milton Taylor's where the party had a feast of good things spread before them. The remainder of the evening was spent in mirth, and at a late hour the lumbering wagon conveyed its happy cargo to their homes.

—Consumption in its early stages is readily cured by the use of Dr. Pierce's "Golden Medical Discovery," though, if the lungs are wasted no medicine will effect a cure. No known remedy possesses such soothing and healing influence over all scrofulous, tuberculous, and pulmonary affections as the "Discovery." John Willis, of Elyria, Ohio, writes: "The 'Golden Medical Discovery' does positively cure consumption, as, after trying every other medicine in vain, this succeeded." Mr. Z. T. Phelps, of Cuthbert, Ga., writes: "The 'Golden Medical Discovery' has cured my wife of bronchitis and incipient consumption." Sold by druggists.

—J. B. Brown, of South Carrollton, Ky., is selling beautiful Italian Marble headstones and monuments at such reduced prices that almost anyone can now easily afford to place a lasting and

beautiful memento at the graves of loved ones. A look through his establishment will convince anyone that it is not worth while to patronize foreign houses when the same material and better workmanship at a lower price can be obtained at home. Any person in need of anything in his line would do well to send for an estimate or call at Mr. Brown's office. 42-41

Notice.

To the teachers of Ohio county: I will be absent in different parts of the county visiting schools for the next six weeks and will be in my office on Saturdays only. Anyone wishing to see me will call on those days.

Echoes from Livermore.

October 14, 1882.

In harmony with his custom D. J. Tucker gave a glorious old dance Tuesday night. Among those seen there may be mentioned: "Col. Joe Howard, dancing in matchless jump-hoed style and lost completely in surrounding delights. The fair school marm arrayed in smiles forgetting the noble precept: 'She was setting for young America. The undaunted Thirder imagining himself in the third story of heaven and making lightning speed for the fourth. Blind Stewart sorrowful to extreme that want of speed forbids his cutting the pigeon-wing in his ponderous enviable manner. The snail-baited beauty were there in alluring array. Each one confident that his charming fair surpassed the famous Cleopatra. On the whole it was an immense affair. Come again D. J."

Business in our town is rather dull. Some of our people go to Owensboro and Calhoun to buy their dry goods &c.

One of Wm. Gregory's little girls slipped and fell while playing at the new church and received a cut on the forehead. The wound had to be sewed up by a doctor.

More next time.

Fossil Tracks in Nevada.

A discovery has been lately made in Nevada which, if the details given are true, is likely to create a stir in the scientific world.

It is a mooted question with geologists whether any reliable indications of man's existence on the earth earlier than the historic period have ever been discovered or not. Christian geologists maintaining there have not, while sceptics say there have. It is true beyond doubt that skeletons of men have been found in formations antedating the Androzoic age; but as these have always been found in caverns which have been closed up by subsequent deposits, their occurrence there has been satisfactorily explained on the supposition that they drifted in there from later formations—the Androzoic, in fact, and were covered by aqueous deposits of that age. But now comes the Nevada discovery of tracks of men in the plicose of the tertiary in conjunction with those of foxes, deer and other animals contemporary with man even a horse's track is thought to be found. From the meager reports that can be gathered at present it seems that there are no indications of a cavern in the rocks on which the tracks were impressed and hence the usual and reasonable explanation fails to reach the case. The rock is a sandstone alternating with deposits of clay and the rock at the level of the tracks is said to resemble the mud of an ancient lake consolidated which had been after covered by layers of sand. While we have not the evidence before us to form a correct opinion of the matter, at first blush it would seem probable that the tracks might have been made in the mud of a much later formation which by subsidence had settled down among the plicose rocks and been covered by deposits of sand within the historic period.

The tracks of the men were of unusual size—nineteen inches in length with a heel six inches in breadth. But every one knows the tendency of tracks made in soft mud to spread out and increase in size, and, doubtless, the immense size is due to this fact alone. We avoid the decision of the experts with considerable curiosity as to what their determination may be.

Some Facts of Interest to buyers of Pianos and Organs.

Hardly a Minister, Lawyer, Doctor, Banker or Merchant throughout the West but has received a circular from some pretended Eastern manufacturer of Pianos and Organs, offering these instruments to him at enormous discounts. These circulars are generally addressed to a special profession of business. They are prepared with every appearance of fairness, but two conditions are rigorously observed, the cash with order and only ten or fifteen days trial, and of course they are warranted and for a year or two more than the best manufacturers think it necessary to name for the protection of their customers. Many people ask: What does it mean? Have we been paying twelve or three times the real value of instruments heretofore? We say by no means. These are only engaged in selling cheap and shoddy instruments, and tempt buyers with enormous discounts from lists raised for the purpose.

The piano they list at \$650, and offer at \$175 cash, you can buy of a better quality from any respectable house or dealer home for the same or less money. Their Organs listed at \$270, and offered at \$95, can be bought in the same way. The fact that the description of these instruments is the same as that of others for which respectable dealers at home ask much more should not have any weight.

Remember that the real value of an instrument depends on its quality and durability. A thoroughly made Piano or Organ will necessarily cost more than one that is merely put up to sell under a fictitious name.

The Greenback mass meeting called to meet in Elizabethtown, on the 14th inst., met according to announcement and after election of chairman and secretary a committee for the Fourth District was appointed, consisting of one from each county. After discussions on principles and objects of the party a committee was appointed to select a suitable man to make the race for Congress. The name of Hon. W. H. Parrish, of Grayson, was presented and heartily endorsed by the entire meeting. After a timely speech of acceptance by Mr. Parrish, the meeting adjourned.
